The Royal Marsden Conference Team

The 11th Annual Head and Neck Conference: “Head and neck cancer management in the elderly”

Friday 8 November 2019
The Royal College of Physicians, 11 St Andrews Place, Regents Park, London NW1 4LE
www.royalmarsden.nhs.uk/conferences
The 11th Annual Head and Neck Conference: “Head and neck cancer management in the elderly”

Introduction

Dear Colleagues

After the success of the last ten years it is with great pleasure that you are invited to participate in the eleventh Royal Marsden Head and Neck study day. Sixty percent of all malignancies are diagnosed in patients who are over 65 years of age and the numbers of elderly patients will increase in the foreseeable future. This year we have therefore chosen to focus on the diagnosis and management of head and neck cancer in the elderly. The meeting assembles some of the country’s leading experts to critically discuss the evidence base for a wide range of pertinent topics. The meeting will be of particular interest to maxillofacial, ENT or plastic surgeons with an interest in head and neck oncology, as well as clinical / medical oncologists, radiologists and pathologists. Our invitation is extended to consultants and trainees alike, as well as other members of the multidisciplinary team. The meeting will be interactive with ample opportunity to discuss the evidence presented.

Mr Cyrus Kerawala
Consultant Maxillofacial/ Head and Neck Surgeon
The Royal Marsden NHS Foundation Trust

Professor Vin Paleri
Consultant ENT/ Head and Neck Surgeon
The Royal Marsden NHS Foundation Trust

Conference aims

This course aims to build on the successes of the last ten years and will explore the changes that have taken place in the management of head and neck malignancy in the last decade. The day will consist of evidence-based lectures that will focus on biology of the ageing cell, peri-operative care and frailty, physical rehabilitation after treatment in the elderly and some of the ethical dilemmas that surround treatment in this age group. Case-based discussion will be incorporated throughout the day.

Target audience

Specialist Registrars and Consultants in Head and Neck / Maxillofacial / ENT / Plastic Surgery, Clinical and Medical Oncologists, Pathologists, Radiologists and all members of the extended Head and Neck Team

Topics to include

- Biology of the ageing cell
- Peri-operative care and frailty
- Physical rehabilitation after treatment in the elderly
- Ethical dilemmas
